Dr. Gloria B. Pipkin had the distinction of being the second female president of the South Carolina Dental Association, serving in 2015.

Dr. Gloria Pipkin was born in Charleston, South Carolina in 1943 to Issac A. and Kathleen Josey Brunson. She grew up in the Jamestown community near Monck's Corner, South Carolina. Dr. Pipkin graduated from Macedonia High School there in 1961. After high school, she worked for over 10 years in a family medical practice in Moncks Corner. In 1974 she graduated from the College of Health Professionals at the Medical University of South Carolina as a Physician's Assistant. Dr. Pipkin continued with this profession for 11 more years, until entering the College of Charleston, where she obtained a B.S. degree in Biology in 1988. Her dental education was pursued at the College of Dental Medicine at the Medical University of South Carolina, where she graduated in 1994.

Dr. Pipkin began her practice in general dentistry in Monck's Corner following her dental school graduation in 1994. She has served on numerous committees during her career. In 2003-2004 Dr. Pipkin was president of the Coastal District Dental Society. She has served as a delegate to the South Carolina Dental Association's House of Delegates since 1996. Dr. Pipkin had the distinction of serving as the president of the entire South Carolina Dental Association in 2015. Her theme that year was "Branching into the New Age of Dentistry." The Annual Session that year was held at the Charleston Marriott. Among the issues confronting the South Carolina Dental Association that year were: drafting legislation that year to establish clear guidelines for sedation in dentistry, having to contend with several anti-fluoride groups trying to remove water fluoridation programs, dealing with the mid-level provider movement, and addressing the low reimbursement rates for the Medicaid dental program.

Dr. Pipkin is a member of several additional dental organizations: the Academy of General Dentistry, the American Academy of Practice Administration, and the American Academy of Female Dentists. Because of her many contributions to dentistry, she has been selected for Fellowship in the American College of Dentists.

In the community, Dr. Pipkin has been very involved. She is a past president of the Monck's Corner Rotary Club, as well as a Paul Harris Fellow there. Dr. Pipkin has served on the Callen-Lacey Advisory Board, the Berkeley County Museum Board of Directors, the Trident Medical Center Advisory Board, the Palmetto Alzheimer's Advisory Board, the Trident Library Board, and on the Board of Directors of the Goodwill Industries of Lower South Carolina. She was a member of the National Association of Female Executives. Additionally she has also been a corporate sponsor of the Berkeley County Schools. Dr. Pipkin has served as the president of the Hell Hole Swamp Festival, as well as the Concerned Citizens of Jamestown community organization. Dr. Pipkin has been honored as the Honorary Commander of the 16th Airlift Squadron at the Charleston Air Force Base.

Dr. Pipkin was very active at the Jamestown Baptist Church, where she has served as a Sunday School teacher, Music Director, choir member, and the church pianist and organist. For relaxation, Dr. Pipkin enjoyed her hobbies of gardening, needlework, and painting with both watercolors and oils. Due to her artistic talents, she was a loyal member of the Berkeley Artists Guild.

Dr. Pipkin was married to Glenn Pipkin, and they had a son, Glenn Pipkin, Jr.

DENTAQUEST AND SCDHHS

Working together to improve the oral health of South Carolina's residents

DentaQuest serves as administrator of the Healthy Connections dental program for the SC Department of Health and Human Services (SCDHHS). We are committed to the success of the program and appreciate provider participation.

DentaQuest's Provider Web Portal, govservices.dentaquest.com, is a one-stop shop for verifying member eligibility, claim submission and status check, reviewing policy guides, accessing EOBs and more.

We are pleased to offer a series of educational webinars on the second Wednesday of every month from noon to 1 p.m. EST.

For more information on the SC Healthy Connections Medicaid Dental Program or provider trainings, you may contact your DentaQuest Provider Engagement team at CarolinaProviders@dentaquest.com

President's Message

By Dr. Julia Mikell, SCDA President

Anyone else looking forward to ringing in the New Year and putting 2020 in the rearview mirror?

In spite of all the challenges and hardships we have faced this year, I hope you have found some blessings to count in 2020, and I hope the American Dental Association (ADA) and the South Carolina Dental Association (SCDA) are among those blessings.

I realize and join you in facing the financial challenges the pandemic has created. We are all looking for ways to reorganize and reprioritize our expenses. As you plan your finances for the coming year, I hope you consider your SCDA and ADA dues one of those priorities.

For the first time, our membership dues invoices were sent via email in November to reduce expenses and make it easier for those who prefer electronic transactions. The SCDA has had an excellent response rate already and a second email only dues notice was sent out early December.

The SCDA still plans to mail a hard copy dues notices on December 15, 2020 to all who have not paid their 2021 dues.

You may be asking yourself, what will my ADA and SCDA dues give me in 2021:

- First, it will give you confidence in knowing that the ADA has eyes and ears in Washington, DC and the SCDA has the same in Columbia. We have seen multiple times this past year that presence and those relationships be essential for dentistry to be included in considerations for federal and state assistance. Although our Governor did not participate in a few of the programs the other Governors did, he did include dentists in South Carolina's version of Personal Protective Equipment (PPE) assistance thanks to our Lobbyists and SCDA presence.
- Second, without a doubt, if there was or if there is an issue for or against us, rest assured, we have great representation on both the Federal and State level in place to fight for and keep us informed.
- Third, our SCDA is our direct line to the ADA. Our SCDA staff is one of the most efficient well-run small state association staff in the country in my opinion. The camaraderie, teamwork, professionalism and respect that the five people at 120 Stonemark Lane have on a daily basis is remarkable and admirable. We get as much or more done with our 5 person team than some larger state association staffs.
- Last, but not least, we will continue to need the ADA and SCDA assistance to see us through this current pandemic, but if we don't have them next year or for the next crisis, who will have our backs?

These are a few of the reasons why we should renew our membership even when revenues are down, and struggles are still a daily reality for the foreseeable future.

Check your inbox or [click here](#) and RENEW YOUR 2021 DUES NOW!

I feel certain you are all joining me in counting on 2021 to be easier and more successful as we get a better handle on the impact of the virus in our lives at work and at home.

Executive Director's Notes

By Phil Latham, SCDA Executive Director

CORONAVIRUS UPDATE

The American Dental Association continues to add important and practice related articles to its' Coronavirus Update page which can be accessed [here](#).

Make it a point to check the link out regularly to see the latest articles that will provide helpful information.

PATIENT RECORDS

On another topic, providing patients records to another dental practitioner is required by South Carolina law. Board Regulation 39-11, Ethics (1-B) States:

"Upon request of a patient or another dental practitioner, dentists shall provide any information that will be beneficial for the future treatment of that patient."

Further, in accordance with Board policy, dental records are the property of the dentist who performs the dental service; however, a patient who requests his/her records shall have access to such records. Copies of patient records and/or x-rays, or summaries thereof, must be made available to the patient and/or new dentist upon submission of a written release authorization, in a reasonable manner and upon reasonable costs associated with providing such record. This obligation exists whether or not the patient's account is paid in full.

When dealing with patient records is it imperative that you have the required permissions to release any or all of a patient's dental record before duplicating and transferring records. This is critical to ensuring the confidentiality of the Protected Health Information that the document contains.

Situations under which you might be asked to provide copies of the patient record include:

- Referring a patient for treatment by another healthcare provider
- The patient has requested the information
- Being mandated by the state dental board or a court of law
- Aiding in a forensic identification
- Dental insurance audit

According to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), permission to release the information can be obtained by having the patient sign an authorization form and adhering to the "minimum necessary standard."

Great for my dental practice

I recommend iPrescribe to any dentist who desires a modern and painless solution to prescribe controlled substances and meet the new regulations.

—MargorobbyDMD

Free until 2021

After your risk-free trial, keep your **EPCS** and **PDMP** service for \$10/month.

Visit iprescribe.app/scdab to get started.

* EPCS = Electronic Prescriptions for Controlled Substances
PDMP = Prescription Drug Monitoring Program

Brought to you by the industry leader in medication management solutions.

Our Lady of Mercy Community Outreach is Seeking Volunteers

By OLMCOS

For over 31 years, Our Lady of Mercy Community Outreach (OLMCOS) has believed in community first by assisting neighbors in need living in the Sea Islands and downtown Charleston, helping them achieve their desired path to self-sufficiency. We work to address the root causes of poverty and create systemic change by providing basic and emergency resources, education and specific health programs, as well as coordinated services in the broader community.

The lack of access to regular dental care is prevalent throughout South Carolina, and is especially present for those who live in rural and urban communities who largely are uninsured or underinsured communities of color and low-income levels. OLMCOS' Wellness Center on the Johns Island campus is the only state of the art facility that provides free, comprehensive dental care within a 15-mile radius. Our dental care consists of debridement, deep scaling, prophylaxis, fluoride treatment, restorative dental care, CEREC crown technology, endodontic treatment and oral surgical care. Along with comprehensive care, patients receive health education for oral hygiene, disease prevention and management. We also host an emergency clinic to allow patients outside of our normal service areas to have access to emergency dental procedures.

Through mutually beneficial partnerships with the MUSC School of Dentistry and Trident Dental School, we bring high quality oral health providers to our underserved community and providers to expand our capacity and types of services while providing supervised training and real-life experiences.

In 2019, Our Dental Clinic completed 13,025 procedures totaling a value of more than 1.5 million dollars.

Right now, Our Lady of Mercy Community Outreach has multiple, flexible volunteer dentist positions available for any licensed dentist who would like to help improve the lives of those in need. Contact info@olmoutreach.org.

How to Choose the Best Payroll Provider for your Practice

By OnPay, An SCDA Endorsed Company

When you're running a busy dental practice, keeping administrative tasks accurate and organized can be a lot to manage. A payroll service can help you avoid mistakes, cut down on busywork, and give you more time with patients (or home with family). Here are some key questions to ask any providers you considering:

Payroll and finance essentials

Start by checking off the basic requirements you'll need to pay workers and keep your records in sync.

- Can I pay both employees and contractors?
- Are all calculations, filings, and payments of payroll taxes automated?
- Can I integrate payroll with my time tracking and accounting software?

Help with HR and compliance

Make sure you're also getting tools to help manage your team and stay compliant with any state requirements.

- Can I invite new hires to self-onboard?
- Can I handle HR tasks like setting PTO accrual policies and managing time off requests?
- Can I integrate payroll with a workers' compensation plan?

Expert setup and ongoing support

Payroll and taxes can be complicated. A great provider will offer expert support every step of the way.

- Does the provider offer free account setup, including help migrating employee data any prior wages?
- Can you get support from trained payroll experts by phone, email, and chat?
- Is there an accuracy guarantee for tax calculations and filings?

Transparent pricing — no hidden fees

Make sure you have a good understanding of how much your payroll service really costs by asking what's included.

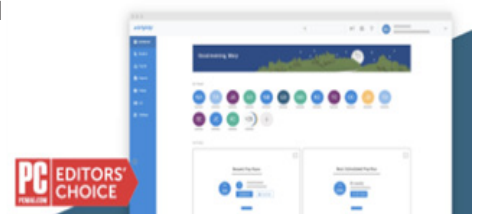

- Is billing based on a monthly fee or the number of pay runs in a month?
- Are there extra fees for HR tools, accounting integrations, or other features you plan to use?
- Does the price include year-end filings, W-2s, and 1099s?

Asking these questions as you shop for a payroll provider will help you make sure you're getting the very best service and value to help move your practice forward.

The best way for dentists to simplify payroll, HR, and compliance

Check out OnPay, the ADA's exclusively endorsed payroll provider. You'll get top-ranked services and save 50% compared to other premium providers.

Dr. John Wilmont Parler, Jr 1931-2020, SCDA President 1976-1977

By Dr. Gene Atkinson, SCDA Historian

Dr. John W. Parler, Jr. excelled in his many roles of leadership guiding the profession of dentistry.

Dr. John Parler, Jr. was born in Batesburg, South Carolina in 1931 to John Wilmont Parler, Sr. and Mary Law Workman Parler. He attended the Batesburg-Leesville schools growing up and finished high school there in 1949. After graduating from Presbyterian College in 1952, he entered the University of Louisville Dental School where he completed his dental degree in 1956. This was followed by two years in the United States Navy Dental Corps, where he did advanced studies in Oral Surgery.

Dr. Parler practiced general dentistry in Batesburg, South Carolina from 1958 to 1998. He served as president of the Central District Dental Society in 1967 to 1968.

Dr. Parler was a charter member of the South Carolina Chapter of the American Society of Dentistry for Children, as well as being its second president. Additionally he was a charter member of the South Carolina Academy of Practice Administration where he served as their Secretary-Treasurer. Enhancing his continuing education in dentistry, Dr. Parler was a charter member of the Midlands Study Club. For many years he was a member of the Academy of General Dentistry. From 1970 to 1975 Dr. Parler was a member of the South Carolina State Board of Dentistry and served as its president in 1973. Additionally Dr. Parler was a member of the American Board of Dental Examiners and the Association of Southern Dental Deans and Examiners.

From 1976 to 1977 Dr. John Parler served as president of the entire South Carolina Dental Association. While president of the SCDA, Dr. Parler spearheaded the re-writing of the South Carolina State Dental Practice Act. For his presidential reception at the Annual Session that year, he arranged for that event to be held at the Governor's Mansion during the governorship of Dr. James B. Edwards, who was a member of the South Carolina Dental Association. For many years he was a delegate for our state association to the House of Delegates of the American Dental Association.

For his many years of leadership in the profession of dentistry, Dr. Parler was inducted as a Fellow in the American College of Dentists and the Federation Dentaire Internationale.

Dr. Parler was a charter member of the Carolina-Honduras Foundation, where he served as Treasurer. For over 25 years he made one or two mission trips each year helping serve the dental needs of the underprivileged in the Honduras.

Civic activities for Dr. John Parler include being a member of the Civitan Club as well as being the Chairman of the American Red Cross Bloodmobile.

Religiously Dr. Parler served in many capacities at St. John's United Methodist. Among these were being a Sunday School teacher, serving on the Administrative Board, as well as being Chairman of the Board of Trustees.

Dr. Parler stayed very active with the hobbies in his life. Included in these are: fishing, bird hunting, raising and training his bird dogs, cattle farming, and forest management.

Dr. Parler married the former Ann Miller, and they had two children: John W. Parler, III and Robin Ann Parler Taylor.

ePrescribe Helps You Check Requirements Off Your List

✓ **Contactless Prescriptions**

✓ **Meet Your State Mandate**

With ePrescribe from Henry Schein One, you can easily enable contactless prescriptions for your patients while meeting your state mandate on prescribing controlled substances, plus:

- Send prescriptions to major retail pharmacies that require electronic prescription submission
- View patient prescription history through the Prescription Drug Monitoring Program (PDMP)
- Check for adverse drug-to-drug interactions and inappropriate dosing

To learn how easy it is to begin prescribing electronically, contact a Henry Schein One specialist **(833) 907-1747** or visit **HenryScheinOne.com/ePrescribe/DPS**

Why Every Prescription Should be Electronic

By Robert McDermott, President and CEO, iCoreConnect, an SCDA Endorsed Company

Improve patient care and protect your practice as soon as you begin electronically prescribing. On January 1st, South Carolina law will require doctors to electronically prescribe any controlled substance included in Schedules II, III, IV, and V. e-Prescribing controlled substances is the first step toward maximizing your entire prescription process.

Consider transitioning every prescription away from traditional methods to electronic. When you do you'll experience a notable shift in your workflow. Electronic prescribing offers flexibility as well as key integrations and automations to help to remove human error, verify correct prescriptions and reduce the risk of misuse.

For example:

- Prescribe on Any Computer, Laptop, Tablet or Phone. Prescribing on any computer or device, gives you maximum flexibility to provide attentive care to your patients and create an efficient workflow for your practice
- Integrate with Your Practice Management System. Integration between e-Prescribing software and your practice management system populates patient information directly into your e-Prescribing software, eliminating duplicate work

Here are the basics about e-Prescribing.

Keep your workflow.

The e-Prescribing workflow is similar to paper. Your staff can still prepare the prescription for you to review and sign. Then it's sent with a click.

Provide better care through e-Prescribing.

Access the patient's prescription history at your fingertips. That means you have access to all prescriptions dispensed at any U.S. pharmacy over the past twelve months.

Access drug directory information.

Eliminate the yearly Lexicomp(r) book purchase and the time it takes to flip through thousands of pages to find what you need. If the Lexicomp(r) directory is built into the e-Prescription software, you just start typing the drug brand or generic name and the software immediately pulls the drug information, including dosing options, contraindications, and discontinued meds.

Improve patient outcomes.

When a patient knows their prescription will be automatically transmitted and most likely ready by the time they get the pharmacy, they're more likely to pick up their medication in a timely manner. Greater convenience often means improved adherence to the prescribed medication.

Play Favorites.

Look for a service with a "Doctor's Favorites" function for quick access to the medications you frequently prescribe as well as automatically save patients' preferred pharmacies.

e-Prescribing improves workflow and helps inform decisions around prescription care. Take advantage of the law to maximize your entire prescription process.

iCoreConnect, an SCDA Member Benefits Group Endorsed Partner, develops cloud-based technologies to improve and protect your practice. SCDA members receive special discount pricing on iCoreConnect's e-Prescribing software, iCoreRx. Visit iCoreConnect.com/scda or call 888.810.7706 to learn more and book a demo.
