The 138th Annual Session will be one that you and YOUR STAFF will not want to MISS! There is something for every individual in your office and for your spouse! The session will be held May 3-6 at Kingston Plantation in Myrtle Beach.

The session will start off with Dr. John O. Burgess. Dr. Burgess is the Dean for Clinical Research at the University of Alabama at Birmingham. His personal research focuses on clinical evaluation of adhesives, posterior composites, and impression materials. In addition to being an international researcher and lecturer, he is an excellent clinician. He is in such popular demand that

he has been asked by the 2008 convention committee to come back and do a hands-on seminar for the 139th SCDA Annual Session.

We are honored to have this year's annual OSHA update presented by one of the country's foremost authorities on infection control, Dr. John A. Molinari. Dr. Molinari is the co-author of the text "Practical Infection Control in Dentistry". This is the text that sets the standard for infection control in the dental profession today. (This is the text that Dr. Charles Hook referenced in previous years!)

For the business-end of your practice, Ms. Linda

Talley will present two seminars. On Thursday morning her program title will be "Business Finesse: Dealing with sticky situations in the dental practice". Thursday afternoon, Ms. Talley will speak on self-motivating skills. The program title is "Are you a winner or a whiner?".

For the hygienists, Dr. Jon. B. Suzuki will be speaking all day Friday. Dr. Suzuki will be speaking on the "Emerging trends in periodontics: A lecture program for Dentists and Dental Hygienists". Dr. Suzuki is a world renowned Periodontist. He currently teaches at Temple

#### **Guarding Against Prescription Abuse**

By Jennifer Baker

PUBLISHED BY
THE SOUTH
CAROLINA
DENTAL
ASSOCIATION

Prescription forgeries are attempted every day in South Carolina. Think of how many have been caught. Now try to imagine how many have gone undetected. What if the pharmacy had unknowingly filled a forged prescription which purportedly came from your office? These experiences

often result in discomfort and mistrust in prescribing and filling controlled substances. These fears, perfectly rationalized, may become barriers to patients receiving medication when they have a legitimate need.

RxAlert was implemented by the South Carolina Pharmacy Association with the

goal of promoting awareness and prevention of illegal prescription activities in state pharmacies and medical / dental practices. These illegal activities include prescription forgeries, doctor and pharmacy shopping, and theft of

Delta Dental has been committed to service, quality and value since 1954. Today more than ever, dentists need to keep up with an industry that's constantly changing. Delta Dental works with three out of every four dentists through our fee-for-service plan to stay ahead of the curve with current information on billing and coding procedures, health care reform and regulation, new methods of reimbursement and other health care trends. And our specialization in the dental health field allows us to create the most value in dental plans for employers and their employees.

#### Difference.

The difference at Delta Dental is that we offer employer-sponsored plans to companies with ten or more employees. This has allowed us to create a unique cost management program that will provide remarkable savings for you and your employees.

#### Service.

Service with a smile. That's how we like to approach our customer service. As a recognized leader in the industry, we are always within reach, by phone, online or via email. You can get eligibility and benefits information over the phone 24/7 by calling our automated attendant at 1-800-335-8266 or you can email our customer service department to receive a same-day response.

#### Benefits.

There are benefits to specialization. At Delta Dental, we only handle insurance for dental health care. This allows us to create the most economical dental plans for you and your employees.

To find out more about Delta Dental Insurance, call toll free: 800-529-3268 or visit our Web site at www.deltadentalsc.com. Delta Dental. Insuring South Carolina Smiles.

Comments appearing in this section are the renderings of the Editor or credited authors and do not necessarily reflect the opinions or policies of the SCDA. Letters are invited. Brevity is appreciated, and the Editor reserves the right to edit all communications. Letters may be mailed to the SCDA office, or faxed to (803)359-3004.

#### **Early Reports For GKAS**

The Annual Give Kids A Smile Program is one of my special events. It is a project that resonates with caring, giving, and connection to our community. It is an event that has substance, and provides solid dentistry to those in need. I love it!

These past few months have been especially hectic for me as I prepared for the GKAS 2007 weekend. Not to suggest that I somehow organized this alone, I had lots of help in many communities. And although this article was written before our results were submitted, I have great confidence that it will be another resounding success. More facilities will offer treatment, more children will be seen, and that is a good thing.

I would like to take a moment of personal privilege, and share a few accolades with you.

In the changing landscape of annual events, we sometimes need to "re-invent" ourselves. And this year was unique when early in the preparation we learned that Midlands Technical College could not host our restorative phase of GKAS due to the school's reaccreditation visit. Not to detract from Dr. Hanks and the MTC team, they have held five clinic days at the college to identify hundreds of patients! Well, I reached out to some friends, and four pediatric offices came to our rescue. They provided solid anchors as Robin Van Put and other referred patients to these, and other volunteer offices. Although I risk overlooking a volunteer, I would like to acknowledge Palmetto Smiles, Pediatric Dental Care of Lexington, Dr. Karen Park's Office, and Carolina Children's Dentistry for stepping up and providing clinic space. Other private offices all over the state have offered to open their doors, and we will see how the GKAS 2007 Day succeeds.

Some other changes include: Newberry becoming a GKAS community (thanks to Erwin Baker and others), Drs. Chuck Crawford and Loring Ross using a private office model in their towns, and Greenville Technical College enrolling an enthusiastic "late entry" community chair in Dr. Lisa Mullis.

Donations and supplies are always "at a premium", and Patterson Dental Supply, Sullivan-Schein Dental, and Benco Dental Supply were generous in their support. And speaking of supporting an effort, Nancy Spencer, state director of Delta Dental Insurance, not only gave financial aid but worked at the Richland Clinic. Well Done Nancy!

#### Dental Insurance on the Recovery List

In a recent issue of the Kipplinger Letter, a financial magazine, there was information under the title "Human Resources". If I may quote: "Offering dental care can save firms money on health insurance. More employers are adding dental policies as evidence mounts that improving oral care helps keep other illnesses under control. A study of diabetes showed that patient's overall health costs were reduced 9% when they received early periodontal treatment.

Among insurers providing incentives for oral hygiene; Cigna and Aetna. Their health management programs for diabetes, heart disease and pregnancy are covering the full cost of periodontal deep cleanings."

Perhaps if trends continue, medical insurance will be included in normal dental insurance packages. It's possible.

Till next time, Phil

#### **President's Message**

This year is already off to a fast start. I can't believe that the month of January has already come and gone. As I prepare my remarks for this month's newsletter, there are so many thoughts running through my mind that I want to share with you. By the time you receive this newsletter GKAS (Give Kids A Smile) will be history. I believe when the final reports are in we will have another successful year for this event thanks to the tireless efforts of Dr. Phil Smith and the entire GKAS Task Force and the local coordinators around the state.

Also February is Children's Dental Health Month and by the time you read this we should be well on our way in achieving the best Children's Dental Health Month ever thanks again to the monumental role of Dr. Rocky Napier and the entire SCDA CDHM Committee. As you know your SCDA was the 2006 winner of the Samuel Harris National Children's Dental Health Month State Program Award. This marks the eighth award to the SCDA by the Samuel D. Harris Foundation recognizing the association for its continued effort in increasing awareness and promoting optimal oral health in the children of South Carolina.

Thanks again to the CDHM Committee, our participating committees and members, and to many collaborative agencies and organizations across the state. Without you there would be no award.

One of the top priorities of the SCDA is to promote and encourage protection of the oral health of all the citizens of South Carolina. The SCDA works with a number of state governmental organizations and other entities to improve oral health for everyone. One such organization is the South Carolina Department of Health and Environmental Control. A new comprehensive report entitled "South Carolina Takes Action---The Burden of Oral Dis-

ease" has just been released by the South Carolina Department of Health and Environmental Control's Division of Oral Health. This comprehensive report can be found on SC DHEC web site by using the following link <a href="http://www.scdhec.gov/health/mch/oral/index.htm">http://www.scdhec.gov/health/mch/oral/index.htm</a>. Then click on South Carolina Takes Action. I urge everyone to read this report as it provides an overview of the status of oral health in South Carolina

The report shows that some progress has been made towards improving the oral health of residents in South Carolina but a great deal of work needs to be done to address access to care needs among women, minorities and those living in low-income families. Also the report states that due to the high prevalence of tobacco use in the state, South Carolina has a disproportionately high rate of oral cancer incidence and mortality. Cardiovascular and diabetes disease rates are also disproportionately high in South Carolina and research is showing that these diseases can be exacerbated by oral disease conditions.

With regard to oral cancer, oral/pharyngeal cancer is the 9<sup>th</sup> most common cancer occurring in South Carolina. From 1996-2001 in South Carolina, a total of 2,897 oral/pharyngeal cancers were diagnosed. The majority (70%) occurred in males, with black males in South Carolina having the highest incidence of oral/pharyngeal cancer of any other race/sex group. South Carolina currently ranks 3<sup>rd</sup> in the nation in oral/pharyngeal cancer mortality.

Your SCDA is hard at work along with Dr. Terry Day, Associate Professor Department of Otolaryngology Head and Neck Surgery, College of Medicine, MUSC, to change these terrible statistics. Dr. Day is also chairman of the Yul Brynner Head and Neck Can-

Larry Ferguson President

cer Foundation, Inc. and each year this foundation sponsors an oral and head and neck cancer awareness week. This year the awareness week is April 16–22, 2007. The SCDA and the Yul Brynner Head and Neck Cancer Foundation are asking for your help.

I have elected to do free screenings on Friday April 20th at my office. You can volunteer to do community awareness talks, free screenings, as well as become a member of the Yul Brynner Head and Neck Foundation. Please go to www.yulbrynnerfoundation.org for more information or call (843) 792-6624. The American Cancer Society recommends regular dental checkups that include an examination of the entire mouth as an important role in the early detection of oral/pharynx cancers and precancerous conditions. The American Cancer Society also recommends that primary care physicians examine the mouth and throat as a part of a routine cancer-related checkup.

Thanks for taking the time to read this article. Please stay involved with us or get involved if you are not. We need all of your help to keep the SCDA strong in South Carolina. Remember "Together We Can Chart the Future of Dentistry in South Carolina."

#### **Executive Director's Notes**

The SCDA Board at its Jan. 19, 2007, meeting voted unanimously to elevate Phil Latham to the position of Executive Director effective July 1, 2007. Congratulations to Phil. He will do an excellent job. After almost 19 years of writing monthly columns, I have deferred to Phil and you will find his monthly columns helpful and informative. – Hal Zorn

Phil Latham
Deputy Executive Director

"The SCDA and BCBSSC

have worked cooperatively

to find... a solution to the

recently discovered

problem..."

back from the holidays, we have received several phone calls regarding what employee/ patient posters are required in the dental office. There are signage requirements from the Federal and State government along with some required radiation posters.

it a time to review and make sure your office is

up to compliance in many areas. Since coming

The beginning of each year brings with

#### Federal Posters

- -Employee Polygraph Protection Notice;
- -Equal Employment Opportunity is the Law;
- -Family and Medical Leave Act of 1993;
- -Federal Minimum Wage Notice;
- -Notice to Workers with Disabilities Paid at Special Minimum Wages;
- -OSHA Job Safety and Health Protection;
- -USERRA Uniform Service Employment and Reemployment Rights Act

#### State Posters

- -Equal Opportunity Discrimination Notice;
- -Right to Work Laws;
- -Unemployment Insurance, Unemployment Compensation Tax, Unemployment Benefits;
- -OSHA Health and Safety Protection on the Job;
- -Wages and Employment for Minors;
- -Workers' Compensation

There are numerous websites available where signs can be downloaded or purchased so they can be properly displayed in your office. One site I suggest is

http://www.laborlawcenter.com/South-Carolina-labor-law-posters.asp

#### Radiation Posters

-A poster placed anywhere in the office seen by all patients which states

If you are pregnant, notify the dentist, hygienist or assistant before having x-rays taken.

(This can be obtained from your dental supplier

or make up your own.)
-RHA-20-Notice to Employees

#### **Record Retention**

Another area that many have asked questions about deals with record retention.

The actual law from the Dental Practice Act, Section 40-15-83 states that "Dentists shall retain their patient records for at least five years. These minimum recordkeeping periods begin to run from the last date of treatment..."

My recommendation would be to add, in addition to the above, the following guidelines for your record retention: For a minor under a disability, keep the records until the minor reaches age 25 or until his/her disability ends. If the dentist knows that a patient is under a disability, such as insanity or non compos mentis, I would recommend that those records be retained forever.

#### Blue Cross Blue Shield of South Carolina (BCBSSC)

The SCDA and BCBSSC have worked cooperatively to find and inform you of a solution to the recently discovered problem relative to payments made under the State Employee Insurance Program Dental Plus Plan.

#### Below is a statement from BCBSSC concerning a resolution to this problem.

"This is a follow up to the issue recently addressed regarding the refunds we, BlueCross BlueShield of South Carolina, requested from the dental community for benefits paid on State Dental Plus claims in error.

"After discussions with the State Employee Insurance Program (EIP), we have agreed to void the refund requests sent to the providers and request the monies from the State employees. Although it is our practice, and will continue to be, to request monies paid in error from the entity receiving our payment (i.e. the provider or

University, where he serves as The Director of Graduate Periodontics and also as the Dean for Graduate Education, Research and International Affairs.

For those of you who want to strengthen your knowledge in treatment planning for anterior esthetics (who doesn't?), Dr. J. William Robbins will be speaking on Friday morning. Dr. Robbins is an energetic speaker who you will not want to miss! When you walk out of his seminar, you will have the principles of esthetic diagnosis forever etched in your memory.

Joe Dillon and Sandy Terrien will speak on coordinated topics on Saturday. Mr. Dillon is an inspirational speaker who teaches the keys to producing peak performance worldwide. He presents the fundamentals of high achievement living clearly and directly. Mr. Dillon is a former Marine Corps fitness instruc-

tor, a twice wounded Vietnam combat veteran, and the trainer of 22 Olympic Medal winning athletes. All meeting attendees and spouses are invited to attend this seminar.

Ms. Sandy Terrien will present to the ladies in the afternoon. Ms. Terrien's program will focus on Women's Health and Fitness. She will touch on areas of body fat, energy, and rekindling your sex life.

These are just a few of the highlights of the program. So please look for all the details in your program brochure. We look forward to seeing you, your family, and staff at this year's Annual Session of the SCDA!

\*Please note there is a change in the registration process for this year's annual meeting. There must be one form used per attendee.

#### **Guarding Against Prescription Abuse**

(continued from page 1)

medical products and prescription pads. RxAlert is a confidential report distributed Monday through Friday to healthcare providers and law enforcement agencies in a statewide network. Since its inception in 2003, more than 2200 illegal prescription actions have been reported through the RxAlert system. The system currently has a recipient list of more than 1300 pharmacies, practitioners, and law enforcement offices in South Carolina.

In June 2004, RxAlert partnered with RxPatrol, a national clearinghouse for illegal prescription activity, which has increased reporting of illegal prescription movement between surrounding states. RxAlert works closely with DHEC Bureau of Drug Control to increase confidence of prescribers and pharmacies in getting the right medications to the right patients. "RxAlert has provided a very timely and effective mechanism to address the problem of prescription drug abuse and diversion, by providing a means of reporting important information regarding prescription fraud to the pharmacy, medical and law enforce-

ment agencies in South Carolina," said Wilbur L. Harling, Director of the Bureau of Drug Control. "The DHEC Bureau fully supports the SC Pharmacy Association in providing the RxAlert program."

RxAlert is provided free to all prescribers, and those that dispense medications are encouraged to participate in this confidential communication network. To enroll, contact the SCPhA office at 800-864-3699 and ask for a "Request to Receive" form. Information on the form credentials the practitioner and establishes a protocol for receipt of the daily reports. These reports to doctors are meant for internal use only, and must be kept in strict confidence.

The RxAlert program is provided as a service to the medical / dental community and for the benefit of the general public. Prescription crimes harm everybody!

(This article is provided by the SC Pharmacy Association and written by Dr. Jennifer Baker, RPH, Director of Professional Affairs for the SCPhA)

# Say "Aahhh."

Not because we want you to open wide, but because that's how you'll feel after working with Dental 360 — a new company that's redefining dental practice management and financial strategy.

The idea behind Dental 360? Bring both financial and management specialties under one roof. By doing so, we can have a more in-depth understanding of your practice and what it takes to get your practice running as efficiently and effectively as possible.

Dental 360 offers services as a total package or "a la carte." No matter how comprehensive a plan you choose, you can be assured our methods are sound and proven to be effective.

Call (803) 743-9600 or visit www.dent360.com to learn more about how Dental 360 is changing the way people think about dental practice management and financial strategy.

#### **Dental Auxiliary Scholarships**

The SCDA Foundation received nominations for dental auxiliary scholarships. These nominations are based solely on the students financial need and academic performance. One scholarship is available for each dental assisting and dental hygiene program at each of the state's technical colleges. The Dental Auxiliary Scholarship program started in 1989 and an average of a dozen scholarships have been granted each year.

The Foundation made its final decisions and scholarship checks in the amount of \$400 each were mailed to the winners (listed below). Congratulations!

#### Extremely Hard—Yet Slightly Flexible

The Bruxguard material is a clear thermoplasticacrylic hybrid that feels just like a conventional hard processed acrylic, but without the usual uncomfortable feel associated with the hard appliances.

#### **Highly accurate**

Our Bruxguard splints are hand crafted from start to finish by a small team of technicians to ensure consistent, predictable results. All cases are surveyed for optimal retention, and fabricated on semifixed articulators for occlusal accuracy.

#### **Fast Seating Time**

Because of the accuracy of the material, seating time is generally less than 15 minutes.

"Big lab capabilities. Small lab service."

#### PROFESSIONAL LIABILITY

The SC JUA and SC PCF now have a new option available to provide professional liability insurance coverage for your PA.

Until now, you had to purchase a separate policy for your PA and pay a separate premium for it. The SC JUA now will allow you to add your PA as an Additional Insured to your individual professional liability policy for no additional cost.

However, since this is "shared-limit" coverage, you and your PA would share the limits of liability on your individual policy. You would also have to add the "staff coverage" endorsement to your individual policy under this option.

Finally, the PCF would provide the same coverage, however your individual policy limits may not exceed 3,000,000/6,000,000.

If you wish to take advantage of this new option available through the SC JUA, you can do so at your renewal. Contact Mrs. Deanna Slomzenski with any questions or to

# Sin See how SC

Patterson Dental has grown to be the leader in providing cost-saving efficiencies for successful dental practices everywhere.

20 ways Patterson can benefit your practice

#### 1. Sales Support

We're much more than a distributor. We're a team of knowledgeable and dedicated sales representatives who can provide you with expert advice on new products and procedures.

#### 2. Inventory Control Systems

Order 24/7 via our electronic order entry system. And with bar code tags, placing an order has never been faster or easier.

#### 3. Faster Delivery

On a national average, Patterson ships over 97 percent of all orders within 24 to 48 hours.

#### 4. Largest Inventory

Choose from over 82,500 competitively priced items in our full line of dental products.

#### 5. Customer Service

Backing up our sales representatives is a team of customer service representatives whose total responsibility is to expedite your order and assist you in any way possible.

#### 10. Equipment Selection

Patterson has a wide selection of brand-name equipment from such top names as A-dec, Gendex, KaVo, Midwest, Planmeca, Proma, Royal, Sirona, Star and many more.

#### 9. Software

With Patterson's powerful orderentry software called eMagine®, and multi-talented practice management and clinical software from EagleSoft®, you'll benefit from timesaving technology and expert support - freeing more time for your patients.

#### 8. Patterson Plus m

Membership gives you a wide selection of special services and discounts, including a guaranteed service response time for emergency repairs.

#### 7. Competitive Pricing

In addition to value added services, we offer competitive pricing on all dental supplies.

#### 6. Technical Service Support

Our service technicians are dedicated to providing you with responsive service support. Whether you need routine maintenance or emergency repairs, count on Patterson to keep you running.

#### 19. Satisfaction Guaranteed

We guarantee all the products we sell and stand behind all manufacturers' warranties.

Patterson customer programs.

#### 11. Office Design

Patterson equipment specialists, utilizing computer-aided design, can assist you in new office construction or remodeling and expanding your present office.

#### 12. Financing

Patterson's in-house financing department can tailor-fit a lease or finance program around your specific needs.

#### 13. Equipment Installation

Our experienced design and service teams work closely with all parties before, during and after installation to assure you the highest quality work.

#### 14. Practice Management

We offer EagleSoft®, the most comprehensive practice management software in the dental industry, backed by a satisfaction guaranteed policy.

#### 18. An Innovative Leader

Patterson was the first distributor to introduce new computer-based products to the dental industry. Whatever the product breakthrough, be assured Patterson will have it first.

#### 17. Front Office Supplies

Turn to Patterson Office Supplies for all your front office needs. Patterson Office Supplies provides you with a complete selection of front office products.

#### 16. One.Plus

When you purchase EagleSoft® software, you get 0% interest for 3 years and no payments for 90 days. And, you could qualify for a 30-percent rebate.

#### 15. 24-Hour Handpiece Repair

Patterson offers 24-hour high-speed handpiece repair from its National Service Center.
