President's Message

By John C Comisi DDS, SCDA President

"There is no season when such pleasant and sunny spots may be lighted on, and produce so pleasant an effect on the feelings as now in October." Nathaniel Hawthorne

Welcome to October!!!

The humidity is now effectively gone until next Spring, everyone is back at school and football is in high gear. The SCDA District Meetings have begun to be held and I would encourage you to consider taking an active role in your District, since the organization is always on the lookout for new leaders to step forward to help direct the SCDA in the years ahead.

I also hope you were able to take part in the SCDA Member Benefits Group Webinar on September 22 and have your calendars marked for the next SCDA Webinar taking place on October 6, 2023. This Webinar is free to the membership and will discuss "What on this X-ray". Our presenter will be Dr. Sonali Rathore from MUSC James B. Edwards College of Dental Medicine.

I was honored to have been asked to present at the Dr. Carlos F. Salinas Dental Program for the Diagnosis and Treatment of Individuals with Special Health Care Needs on September 29 on the subject "Airway, the Final Frontier: The Necessity of Obstructive Sleep Apnea Management in All Patient Populations."

This is an area near and dear to my heart, and in my opinion the direction that dentistry needs to look at more closely, since 1 in 3 patients in your practice may suffer from undiagnosed sleep apnea. This is also why I have helped implement the creation of an Airway – Dental Sleep Apnea elective at the College of Dental Medicine. Last year we had almost 50 pre-doctoral students, residents and faculty members participate in this newly created course and earned a certificate in Dental Sleep Medicine. This training will be of vital importance in how we help our patients since the screening and collaboration with our medical partners can assist in the diagnosis and treatment of this not so silent killer. So, if you are lucky enough to have one of those 2023 graduates in your office, they will not only be able to restore a smile, but also possibly save some lives. You will find more of these knowledgeable individuals coming to you in the Class of 2024 and beyond.

I also had the opportunity in mid-September to represent the SCDA at MUSC-JBECMD to start a new tradition. Each year since the pandemic, the SCDA has been providing the freshman class lab jackets to wear in the Simulation Labs. This idea was conceived by Dr. Monica Cayouette as way of

reducing waste and cost of disposable lab coverings, which everyone was using and needing during the pandemic. She consulted with Dr. Michael Schmidt or expert on infectious diseases and myself (who happened to be the Infection Control Officer for the College at that time, lucky me) to determine if this could be a solution to the disposable gowns. Dr. Schmidt indicated that there was some evidence that due to the short life span of the virus, that placing these jackets into paper bags each day would help to reduce viral contamination,

during the week, and then the jackets could be washed weekly and reused. She presented the idea to our Board, and it was unanimously passed. We have been providing these jacket since that time, and this year, I suggested that we make a formal presentation to the students. The Dean, and others agreed this was a great idea. Drs. Huja, Bencharit, Cayouette , Vuthiganon and I gave brief presentations and emphasized the importance of organized dentistry and the SCDA, and of course the great working relationship between MUSC-JBECDM and SCDA. Please see the photos from the event. Ms. Pam Graule and Ms. Karri Anderson and Ms. Kati Burt were wonderful participants helping the program run smoothly. Congratulations to the Class of 2027!

Lastly, the American Dental Association SmileCon meeting occurs in Orlando in the early days of October this year. This annual event culminates with the bringing together of the many delegates and alternate delegates to the ADA House to deliberate the many actions to be taken by the ADA. I can assure you that your delegates and alternate delegates will do their very best to look out for our professions best interest.

Always at your service,

John C. Comisi, D.D.S.

“

Choice walked me through the process, presented the best offers, and made the experience much less stressful by handling all the negotiations. In the end, I received more for my practice than I ever expected. The best part is that Choice provided all the consultation and services to me without charging any fees! If you are considering selling to a DSO, I highly recommend you contact Choice instead of directly contacting the DSOs.

SCDA Group Trust Plan

By Mark Brown, CAE, SCDA Operations Director

Have you considered a group medical plan for your family and staff? Reach out to the SCDA for free quotes.

The SCDA Group Trust Plan is fully insured by BlueCross/BlueShield of South Carolina (BCBSSC) and utilizes the largest network of providers in our state, with nationwide and worldwide coverage. The Trust Plan offers 18 different deductible plans to choose from and a practice can choose to offer any 2 of the plans. Plans options include 11 standard copay plans, 5 Health Savings Account (HSA) plans, and 2 Health Incentive Account (HIA) plans. Life insurance is built in and there are even dental and vision benefits available as well. The SCDA Group Trust Plan has all-inclusive (includes surgery) office visit copay plans. COBRA administration is included, taking that headache off the plates of any participating employers.

The SCDA Group Trust Plan can start a new group at the beginning of any month you see fit, so there is no need to wait until the start of the new year or for the renewal of a current group medical plan. Participation guidelines have recently been revised making it even easier for practices to join the plan.

For further information regarding participation guidelines, benefit designs, pricing, etc., email scda@scda.org or call 803.750.2277.

Practices For Sale

COLUMBIA MILLION DOLLAR OPPORTUNITY: This GP is an excellent opportunity for a talented clinical dentist. Current collections are \$900K with a 3.5 doctor and 2.5 hygiene work week. The practice has a patient base that is 80% PPO and 20% FFS. There are a total of 7 ops, with 5 equipped. The practice has a robust hygiene program and an exceptional recall system in place. The seller is willing to stay on post-sale for as long as the purchaser would like. **Opportunity ID: SC-7919**

SATELLITE, MERGER OR START-UP OPPORTUNITY: GP located in an office complex in the West Ashley area of Charleston. This 1,000 sq. ft. space houses 2 fully furnished ops, plus a partially equipped 3rd op that's plumbed. Current collections are \$330K with 750+ active patients that are 64% PPO and 36% FFS. The practice operates on 3 doctor and 3 hygiene days per week. Most specialty procedures are referred out, creating an extraordinary potential for growth. **Opportunity ID: SC-7918**

SOUTHEASTERN, SC CLOSE TO THE COAST: This remarkable GP located in a free-standing building has 5 ops, 2 of which are hygiene ops, in 1,700 sq. ft. It is all digital with paper charts for patients. The seller is willing to stay on post-sale if you desire. The practice is a mixture of 80% FFS and 20% Medicaid, no PPOs to control your compensation. This practice collected over \$875K in 2021, making it an excellent income opportunity. **Opportunity ID: SC-7402**

Executive Director's Notes

By Phil Latham, SCDA Executive Director

Recently, the South Carolina State Board of Dentistry issued a new policy regarding patient's records. Below is a summary of the new policy.

"It has come to the South Carolina Board of Dentistry's attention that dental patients are having an increasingly difficult time obtaining copies of their dental records from dental offices in South Carolina. Accordingly, the Board is hereby promulgating this policy to assist patients in obtaining their records and to remind licensees of their obligations under state and federal law."

South Carolina Code section 40-15-83, Patient recordkeeping requirements; penalty, states:

(A) Dentists shall retain their patient records for at least five years. These minimum recordkeeping periods begin to run from the last date of treatment. After these minimum recordkeeping periods, the records may be destroyed. If a dentist is employed by a corporation or another dentist, the corporation or employing dentist is responsible for maintaining the patient records for a period of five years. The practicing dentist shall have access to these patient records during that period. However, a dentist who works in a nonprofit dental clinic operated solely for the benefit of poor and indigent persons is not required to maintain records for patients seen in that setting. The owner or operator of a nonprofit dental clinic, for at least five years, shall retain patient records for persons treated at the clinic.

(B) A clinic, corporation, or dentist violating subsection (A) is subject to a civil penalty, to be imposed by the board, of up to ten thousand dollars for each violation. S.C. Code Ann. § 40-15-83 (2011).

While the Board does not generally regulate dental practices or the corporate practice of dentistry, under the Dental Practice Act the Board has the statutory authority to fine a clinic, a corporation, or a dentist for a violation of this section. If the dentist who provided the treatment on the patient has left the practice and therefore no longer has access to the records, the Board lawfully retains has the authority under the Act to fine either the clinic, corporation or other dentist for whom the treating dentist worked and who still maintains the records in their possession.

The requirements regarding what must be contained in patient records is set forth in South Carolina Code § 40-15-450. In addition, the Board believes that patient dental records must be maintained in such a manner that a subsequent treating dentist can readily ascertain the treatment provided by the performing dentist and include, at a minimum, documentation of:

1. Personal information;
2. Concise medical history;
3. All patient office visits and other consultations obtained;
4. All prescriptions written including date, type(s) of medications, and number (quantity) prescribed;
5. All therapeutic and diagnostic procedures performed;
6. All written patient instructions and written agreements;
7. Most recent dental charting and periodontal examination, if applicable;
8. All intraoral scans, photographs or digital impressions, if applicable;
9. Most recent full mouth radiographic survey or panograph, or detailed written report on radiographic finding if physical radiographs are unavailable;
10. Most recent bitewing radiographs, or a detailed written report on radiographic findings in the event bitewing radiographs are unavailable;
11. All pathology or medical laboratory reports, if applicable;
12. Anesthesia records, if applicable;
13. All initial orthodontic diagnostic records, including pretreatment study models, photographs, cephalometric radiographs and cephalometric analysis, if applicable, or a detailed written report in lieu of the physical records.
14. Correspondence with consultants or specialists, if applicable.
15. Treatment plan and progress notes.

Copies of patient records and/or x-rays, or summaries thereof, must be made available to the patient and/or new dentist upon submission of a written release authorization, in a reasonable manner and upon reasonable costs associated with providing such record (see below). This obligation exists whether or not the patient's account is paid in full.

The entire new full policy can be read at: <https://llr.sc.gov/bod/PDF/Policy/PatientRecordsPolicy.pdf>

SOUTH CAROLINA
DENTAL ASSOCIATION

Your Continuing Education (CE)

By Dr. Sarandeep Huja, Dean, James B. Edwards College of Dental Medicine

Dear SCDA member:

Have you caught wind of our exciting new MUSC CE programs? While our dental students' education is paramount, we at the James B. Edwards College of Dental Medicine also understand the crucial role of continuing education for our alumni and dental professionals across South Carolina.

To keep your dental license current in the Palmetto State, dentists must complete a minimum of 14 continuing education hours per year, or 28 hours over two years. Dental hygienists and dental technicians have their own quotas, with 14 and eight hours every two years, respectively. In some other states, the bar is even higher. What's more, at least half of those required hours need to be done in person. It's a sizable commitment, and you'd want to make sure it's worth every minute.

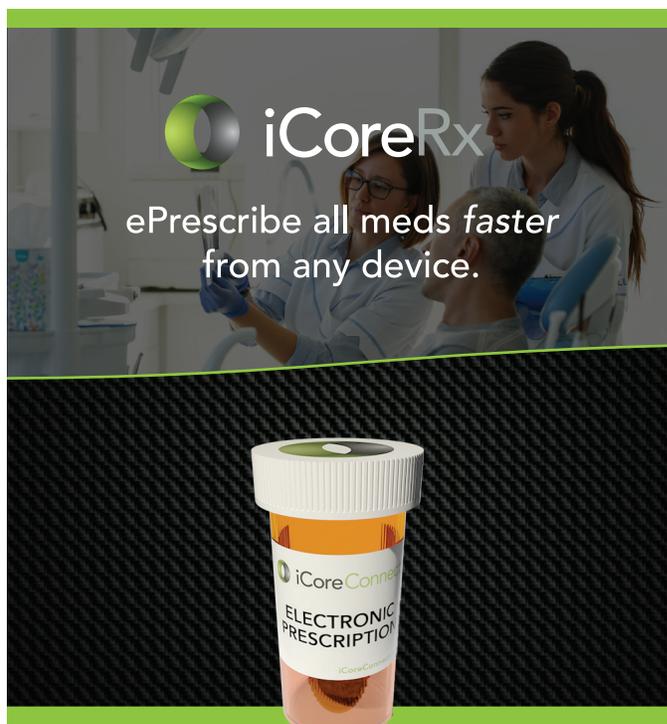

To meet the needs of our alumni and dental professionals in the state and the Southeast, we are pleased to announce the launch of our CE programs in 2023-2024. Leading this initiative is [Dr. Sompop Bencharit](#), a respected expert in prosthodontics and digital dentistry who serves as professor, assistant dean for innovation, and chair of our Department of Reconstructive and Rehabilitation Sciences.

Our inaugural Digital Innovation Symposium is Dec. 7-8. [Registration](#) is open now. Digital dentistry has been a major disruptor, revolutionizing everything from scanning to prosthetic crafting. The heart of our CE initiative, the Digital Innovation Symposium, features a fantastic lecture series by four of our esteemed faculty members. But that's not all – there is a hands-on workshop the next day in our Simulation Lab, diving deep into guided implant surgery and 3D printing. That's a whopping 12 hours of CE credit right there! After soaking up knowledge on cutting-edge digital tech, join us in downtown Charleston for a laid-back reception. It's a fantastic chance to connect with peers, meet some fresh faces on our faculty, and chat with vendors. For complete course details and to secure your spot, please [visit our website](#).

But wait, there's more on the horizon! Keep an eye out for these upcoming CE courses:

- In 2024, we're bringing back an MUSC alum, Dr. Alfred Griffin, founder and CEO of LightForce Orthodontics.
- Mark your calendars for [MUSC Alumni Weekend](#), happening from February 29 to March 2, 2024. It's a CE bonanza included with your weekend ticket. The event website will be updated with speakers and registration in early fall.

As we continue to expand our CE offerings, we welcome your feedback on how we can best support you and your team. Your input is invaluable as we strive to enhance the quality of dental education and practice in our community.
